EDUCATION

Bachelor of Science, Architectural Engineering, 05/2025

The University of Texas at Austin

Overall GPA: 3.4/4.00

Relevant Coursework: Statics, Computer Methods, Diff Eq. and Linear Algebra, Probability and Statistics

WORK EXPERIENCE

Machine Tool Operations for Engineers Teaching Assistant, 08/2022 – Present

- Instructing senior mechanical engineers on how to use industrial shop equipment
- Supervising safety of students while introducing new methods of machining
- Inspecting quality and tolerances of parts produced by students

Treasurer, Architectural Engineering Institute 08/2022 – Present

- Include related awards and accolades earned through your experiences
- Qualify skills and incorporate tools/programs used to accomplish tasks
- Visit with an ECAC counselor to have your resume reviewed

Technical SWE Intern, Quantum Computing, Inc, 07/2021 – 08/2022

- Conducted research comparing performance differences between classical and binary optimizations
- Created graphics with Python for both business and technical interpretations of logistical solutions
- Constructed a database to catalog all company research for future project reference
- Wrote coursework problems introducing binary optimization techniques to college students

ACTIVITIES

Intervarsity Leadership Team, 12/2021 – Present

- Facilitate large group bible studies for approximately 50 students
- Plan discussion material and desired direction for semester content

Longhorn Racing Machinist, 08/2021 – Present

- Machine parts with 0.005" tolerance for a formula style racecar
- Methods employed for production include Manual Mill, Manual Lathe, Welding, CNC Mill

SKILLS

Programming: Python, MySQL, HTML, CSS

CAD: SolidWorks

Other Software: Github/lab, Amazon Quicksight
